

AMBATA

A mobile based fund raising application that targets to help needy students find sponsors for their education

NEED

Statics show that less than 50% of those that sit for KCPE exams make it to secondary schools mainly due to lack of school fees among other factors.

SOLUTION

A crowd funding application that will enable the needy student to approach ordinary persons that will help him/her raise the needed funds. The sponsors will then commit to contribute e.g 20/-, 30/- etc. every day for a specified period of time. This amount shall be deducted from their airtime and later paid to the student's learning institution.
